

## Profile

### **Design Engineer and Draughtsman**

Creative problem solver with proven experience in 3d design, draughting and rendering. A highly motivated individual with exceptional interpersonal and collaborative skills. Interested in both freelance and permanent roles.

## Experience

### **Design Engineer, Geomiq – May 2018 - February 2019**

Geomiq is an online platform that allows users to get designs manufactured quickly and to a high standard. During my time here I have checked thousands of 3D designs over multiple industries, discussed with clients ways to improve their ideas and have worked directly with them to create 3D solutions to design problems.

### **Design Contractor, Braiform – February 2018 - March 2018**

This was a Solidworks based contract to work through Braiform's existing database of 1000+ products. My task was to fix any broken models, apply the correct layouts and specifications, and complete several renders of each product to create an online catalogue for their website.

### **Designer, Rare Breed – July 2017 - November 2017**

During this time I designed and rendered original concept drawings for Rare Breed's marketing pitches and campaigns, including concepts for Cartoon Network, L'Oréal and Yahoo. The role culminated in being the lead creative on a successful Elizabeth Line station opening campaign for National Rail.

### **Designer, Tintab – October 2015 - May 2017**

My role at Tintab was to design bespoke kitchens and staircases, present these designs to clients as renders, draft engineering drawings and manage the in-house contractors to manufacture and install these designs in clients homes.

### **Packaging Designer, Design Packaging – April 2015 - July 2015**

My role at the company was to come up with efficient and functional 3D solutions to safely transport goods with minimal material use.

### **Administration Manager, Light Planet / Phytolux – July 2014 - April 2015**

### **STEM Ambassador – September 2013 - May 2014**

## Education

**University of Brighton – Product Design w/ Professional Experience BSc (Hons) 2014**

## Skills

Solidworks, Fusion 360, Adobe Suite, MS Office. I am interested in digital rendering, concept development, 3D printing, sketching, video editing, animation and photography.
